

QUALITY POWER EQUIPMENT FROM JADE TRADING

Dear valuable customer

JADE has something special for you if you are looking for a 100 MW diesel power plant equipment or smaller line 1.5 MW power plant equipment. Take a minute and check our offering.

Wartsila 100 MW HFO Power Plant with 6 x 18V46 generators

- Excellent condition, complete plant delivered in 2004, output 100 MW/132 kV/50Hz
- Engines 6 x 18V46 HFO, 500 rpm, each less than 70 000 operating hours
- ABB alternators and MV and HV systems, GEA separators, Halvorsen HRCB
- Comprehensive relocation support package available by the current owner
- All major service made by Wartsila, records & documentation available at the site
- Can be tested at full load, immediately available for relocation
- Contact us immediately - this plant will be sold soon!

CHP Power Plant 1.5 MW with Wartsila 4R32 GD Dual Fuel

- Good condition, complete plant CHP plant 1998, output 1440 kW/ 400V/50Hz
- Engine VASA type 4R32 DG dual fuel, 750 rpm, having 31000 operating hours
- 250 bar high pressure gas fuel compressor Sulzer Burckhardt type C4T GP
- Heat recovery from HT waters and exhaust gases, capacity 1200 kW at 80 C
- Can be tested at full load, immediately available for relocation

Also available at www.indmachinery.com :

- Biomass CHP Plant 25 MW thermal input, max electrical output 5.5 MW / 10 kV / 50 HZ . Made in year 2004, approx 25 000 operating hours only
- Diesel generator CAT 3508 / 1000 kVA / 400V/50 Hz in a container, made in year 2006, total operating hours 10 only.
- Steam boilers and other equipment available

Give us a call or send an email - we will respond!
